

In Regards to a letter to the Editor of the times tribune
in early October from Pat Johnson I reply with
these words in Reference to adamant lies she
wrote about our Council, I want you to know
we have the greatest Council in Calif they are people
who care about people out of all the uproar you people
Created our City was born it is an absolute dream
Come true a reality. how you mentioned lies and hatching
More lies do you call the fact of our City a lie
you know you and your groupe has did nothing
but lied all the way, and I just wonder how many
Chicks did you hatch? so far the people you wrote about
and is calling them lies has established the City of
E. Palmdale and a City Charter plus all the things that goes
with a city. now those are the chicks I can see that is hatched
just to mention a few hatched lies you people ~~had~~ ^{put out} People would
lose their property, you people accused ~~us~~
Children of Harassment at the pools you people accuse
people of fraudulent voting and so ^{many} more things I could
name. we will have a Police Dept that is a fact
Crime we will have with us always I just wonder how
many chicks did your lies hatch? our City is not playing
any games. I sympathize with you and others that sit
back and try to play games with people. if you cant
stand to loose leave and ~~leave~~ ^{let other} people to do their work
in peace
